PorchLight Communications to Provide Fiber Optic Services to The Presidio at Briargate

Colorado Springs, Colo. – January 16, 2006 – PorchLight Communications announced today that it has been selected to provide fiber optic network services to The Presidio at Briargate. An advanced fiber optic infrastructure allows efficient delivery of next generation IP communication services such as local and long distance telephone service, high speed internet access, home security and DirecTV Digital Television under one billing platform, on a single network.

“The agreement will allow residents of The Presidio at Briargate to experience converged services delivered over a fiber optic infrastructure. Our belief in providing superior products and services to our homeowners is reinforced by our partnership with PorchLight. We believe that home owners will see increased home values, desirability, and utility of their homes with the advantages of fiber optics and next generation services provided by PorchLight Communications.” said Lowell Moore, Managing Partner of Colorado Coastal Developments.

“We are very excited to be working with Colorado Coastal Development Company and provide a turn-key communication solution supporting The Presidio at Briargate. Homeowners will get all four essential communications services from one local company, on one simple bill, over a single network, and at one low price.” said Robert Athey, CEO of PorchLight Communications.
